

## ENVIRONMENTAL POLICY

Diamond Relocations Ltd recognises and accepts that the protection of the environment is the responsibility of everyone. We are fully aware that environmental issues are as important as those of economy and productivity.

Our policy is to take all necessary steps to comply with environmental legislation and to actively reduce damage to the environment wherever possible.

### **Our commitments:**

To conserve water, paper wood and any other resources, especially those which may be non-renewable.

To reduce waste through re-use or recycling and by using refurbished and recycled products and materials where available.

To make effective and controlled use of electrical appliances (air conditioning, heating etc) using timers and thermostats to conserve energy.

To ensure any products used or derived from our environment (timber etc) are from sustainable sources.

To use efficient vehicle scheduling to avoid empty running or unnecessary journeys.

To ensure safe, responsible disposal of vehicle batteries.

To communicate openly with staff and clients to encourage them to support our environmental objectives.

Diamond are committed to contributing towards the preservation of the environment and recognise that good environmental management must be an integral part of our operation.
